

# Boudicca role play

:\ :( :)

Hi I'm Boudicca and my husband has died I'm by myself hoping that the Romans will protect me! I have my two daughters playing together and I'm having a good time.

Then the Romans took everything from me even my daughters also my money because I was very rich. :(

I got very mad and started a war on the Romans.

Every one was dying. Lots of blood and dead bodies everywhere it was absolutely horrible. I don't care I just want to FIGHT! YEAH I WANT TO FIGHT. So I charged into the fight a killed every Roman I saw.

But then they were too strong and we couldn't hold on any more. So I was thinking poison myself and surrender.

THE END
